

RENIA – Thinner

Technical Data Sheet 540.000-0814

BASIS:

Mixture of organic solvents. **Free of toluene and MEK.**

MATERIALS:

Can be used to test for Thermoplastic Rubber (TR): put one drop on the plastic material. If it melts and smears, it is TR!

INSTRUCTIONS:

Can be used to thin all Renia contact cements. Also suitable for cleaning glue containers, brushes, and application devices. Can be used to adjust the viscosity of contact cements for mechanical application like rolling or spraying. If mixed thoroughly, no phase separation will take place.

POT-LIFE:

Does not change pot-life of thinned adhesives.

OPEN ASSEMBLY TIME:

Does not change open assembly time of thinned adhesives.

PRESSURE:

Not applicable.

CHARACTERISATION:

Strong solvent with very good penetration/permeation and mixing/thinning abilities.

SHELF-LIFE:

Unlimited at 68 °F

THINNER:

Can be used for thinning.

CLEANING:

Can be used to clean equipment.

LABELLING:

Hazard class	:	3	Packing Group	:	II
HMIS	:	1/4/1/C	UN	:	1993
NFPA	:	1/4/0/			

PACKAGES:

Number	Package	Net-Contents	Unit per Box
530481	1/4 Gal can	1/4 Gal	21 cans
530484	1 Gal can	1 Gal	6 cans
530415	5 Gal can	5 Gal	1 can
